

Application to become a Solar Energy Shareholder

NH Solar Shares is a community solar PV installation with 100% of the profits going to our shareholders, who each receive a credit of \$23-32 every month on their electric bills depending on the solar generation. **NH Solar Shares** is open to individuals and families who are receiving NH Fuel Assistance or Electrical Assistance (EAP), or living in low-income housing, including recently built Habitat for Humanity homes. Our goal is to welcome low-income families so they too benefit from the cost savings and environmental benefits of solar energy, while also contributing to healthier communities.

Residents of the following towns are eligible to participate: *Plymouth, Campton, Warren, Wentworth, Rumney, Center Harbor, Holderness, Sandwich, Moultonborough*

- Program participation lasts for two years.
- There is no fee, ever, to participate.
- Shareholders will be invited to our **Solar Shares Meet Ups** where they will learn how solar panels work, and get tips on how to conserve energy to further reduce their home's fuel and electric bills. **Meet Ups** also include activities to help maintain the Solar Shares sites such as preparing edible gardens and clearing brush.

Are you interested in becoming a Shareholder? If so, please answer the questions below:

1. Do you have an electricity account in your name with the NH Electric Cooperative?
 Yes No Unsure
2. Did you receive NH Fuel or Electrical Assistance?
 Yes No Unsure
 If not, are you eligible?
 Yes No Unsure
3. Do you currently have solar panels at your residence?
 Note: Residents with solar panels are not eligible for NH Solar Shares.
 Yes No Unsure
4. In order to be eligible for NH Solar Shares, your electric bill for the entire year (out of pocket cost) must total over \$350. Is your yearly electric bill over \$350?
 Yes No
