

NH Solar Shares Community Solar Project #3

To be built on the property of Lakes Region Conservation Trust

Center Harbor, NH

NH Solar Shares is building its third solar array in Center Harbor NH. The concept behind NH Solar Shares is simple. Once operational 100% of the electricity produced by these solar systems is credited to the electric bills of families in need of assistance. In 2020 and 2021 the first two arrays generated \$12,263 of power with was distributed among 21 families.

This latest array will assist 12 families from the towns of Center Harbor, Holderness, Mounonboro or Sandwich.

This third array, like the first two, will be made possible by grants and donations by individual donors. We need to raise \$156,000 for this project. The New Hampshire Electric COOP will match donations up to \$10,000.

To donate please visit: plymouthenergy.org/donate
and choose: **NH Solar Shares - Center Harbor Project**

Or Mail a check to PAREI PO Box 753 Plymouth, NH 03264
Please add: "Solar Shares Matching Grant" in memo line.
